

Annual meeting of the Danish Epidemiological Society 23 April 2015

**Statens Institut for Folkesundhed
lokale 1.1.02 (Store Mødesal)
Øster Farimagsgade 5A, København**

10:00-10:30: Coffee

10:30-10:45: Welcome

10:45-11:30: Causal inference based mediation: Published studies and a new package, which eases implementation
Theis Lange, University of Copenhagen

11:30-12:15: Mediation in Structural Equation Models and beyond
Bianca de Stavola, London School of Hygiene and Tropical Medicine

12:15-12:45: Discussion: Does mediation analysis contribute to observational epidemiology?

12:45-13:30: Lunch

13:30-14:15: Generalforsamling (åben for alle medlemmer af selskabet)

14:15-14:30: Coffee

14:30-15:15: Use of instrumental variables in population-based epidemiology
Børge Nordestgaard, Herlev Hospital

15:15-16:00: Robustness and efficiency of covariate adjusted linear instrumental variable methods
Vanessa Didelez, University of Bristol

16:00-16:30: Discussion: Does use of instrumental variables improve causal inference in observational epidemiology?

16:30-17:00: Final remarks

**Registration open for all. Discounted fee for DES members
Limited space – register now at
www.dansk-epidemiologisk-selskab.dk
Registration required before April 9.**
